

The pioneering programme that advances health and care innovation

The Accelerate programme offers enterprises, businesses and start-ups bespoke support that translates innovative ideas into new technology, products, and services for the health and care sector.

Accelerate, a collaboration between Life Sciences Hub Wales, Cardiff University, Swansea University and the University of Wales Trinity Saint David, is co-funded by the European Regional Development Fund through the Welsh Government.

The aim of the programme is to create lasting economic value that improves the health and wellbeing of people in Wales.

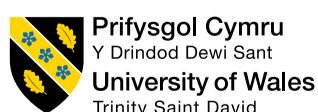

What are we looking for?

Have you got an idea for health technology, but not sure what to do next? Are you a business looking to expand your product range? Are you a healthcare professional who's spotted a smart way to improve a process, but need help getting the idea over the line? Then we want to work with you!

Who is involved?			
<p>Swansea University's Health Technology Centre (HTC)</p> <p>HTC offers a team of innovation technologists and academic experts that spans across; cell biology, medical technology, devices and data analytics. They can provide you with access to state-of-the-art laboratory facilities and equipment.</p>	<p>Cardiff University's Clinical Innovation Accelerator (CIA)</p> <p>CIA has direct access to clinicians, clinical researchers and patients throughout Wales. They're able to offer academic and clinical expertise and improved diagnostics linked to precision medicine.</p>	<p>University of Wales Trinity St David's Assistive Technologies Innovation Centre (ATIC)</p> <p>ATIC has expertise in product design, user experience evaluation and behavioural analysis, 3D data and motion capture, as well as a wide range of prototyping facilities, materials and research.</p>	<p>Life Sciences Hub Wales</p> <p>Life Sciences Hub Wales has detailed knowledge of the key challenges and needs of health and care services in Wales. They're able to provide access and links across the broader Welsh life sciences ecosystem.</p>

How to apply?
