

Innovation Directory Wales

What is it?

The [Innovation Directory](#) is an online resource located on the Life Sciences Hub Wales website. It offers users essential details about organisations in Wales actively involved in the advancement of health and social care innovation.

Here, users will be able to discover and connect with organisations across Wales. Currently, the directory provides information related to the following organisations based in Wales:

- 260+ Life Sciences Companies (Industry)
- Health organisations – Health Boards, Trusts, Regional Innovation and Communication Hubs (RIC Hubs), Regional Partnership Boards (RPBs) etc.
- Innovation Support Organisations
- Universities
- Intensive Learning Academies (ILAs)

Please note that our directory does not claim to include every organisation in Wales. We are actively developing the directory throughout 2024 and welcome feedback and requests from organisations seeking inclusion. Additionally, it is important to be aware that social care organisations in Wales will not be included, as they are already accessible via [Care Inspectorate Wales](#).

What you'll find...

With each organisational listing, you'll find:

- a brief overview of the organisation
- a link to their website where available
- an outline of the services they offer.

Each listing will be categorised by organisation type and sector, allowing users to filter and search based on:

- **Type:** Public, Private, NHS, Government (Local, UK, Wales)
- **Sector:** Healthcare, Social Care, Life Sciences, Pharmaceuticals, Medical Technology, Digital Health, Industry, Academia, Innovation Support

Purpose

The aim is to make it as easy as possible for users to search for different organisations in Wales that are part of the Welsh innovation ecosystem.

Disclaimer

Inclusion in the directory does not constitute endorsement by Life Sciences Hub Wales. Listings do not validate specific products, services, or organisations. Users are encouraged to conduct their own due diligence.

Feedback

Please be aware that the Innovation Directory is currently in BETA phase. We welcome and appreciate your feedback.

Get listed!

Wales offers a dynamic ecosystem, empowering innovators in health and social care. For more information or to feature in our directory, contact hello@lshubwales.com today.

Change requests

Organisations can request changes / updates to their listing by emailing hello@lshubwales.com. We encourage each listing to stick to the following:

Overview: We recommend a maximum of 100 words. The shorter the description, the easier it is for users to digest the information.

Website link:

Geography: Wales

Sector: A maximum of two-three tags per listing.

Services: A maximum of four-six tags per listing.

Type: Options include: Public / Private / NHS / Government

Specialism: A maximum of five-eight words.

Change requests must be authorised by the relevant personnel from organisations listed in the directory. We would expect to receive these from authorised senior personnel such as, Director of Communications, CEO, etc. before any amends are made.

Annual updates

Once a year, we'll review the database and make necessary updates. These annual updates will be carried out in December to align with the Office for Life Sciences database updates.
